ELECTRONIC BATTERY MAIN SWITCH & CONTROL SWITCHES

PRODUCT RANGE

S220 SERIES

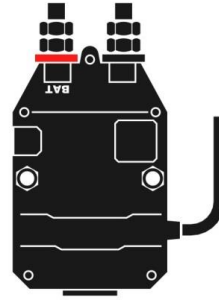

- 200 Amps rated, 24V or 12V
 - Applications: agriculture, trucks, special vehicles...
 - Bistable actuator
 - Power connections M8
 - Cable output for any type of connector
 - up to 2 inputs & 1 output
 - Monostable relay variant
 - Optional Busbar for power distribution

S250 SERIES

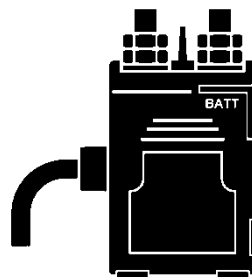

- 300 Amps rated, 24V or 12V
 - Applications: trucks, agriculture, marine...
 - Bistable actuator
 - Power connections M10
 - Cable output for any type of connector
 - up to 5 inputs & 3 outputs
 - ADR variant
 - 2-pole SLP variant (UK) with Slave Unit

S260 SERIES

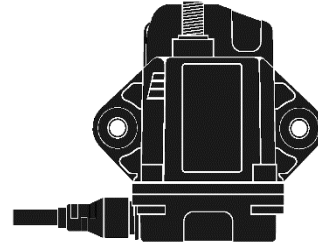

- 300 Amps rated, 24V or 12V
 - Applications: trucks, busses, agriculture...
 - Bistable actuator
 - Power connections M10
 - Cable output for any type of connector
 - up to 5 inputs & 3 outputs
 - ADR variant
 - Optional manual control

S270 SERIES

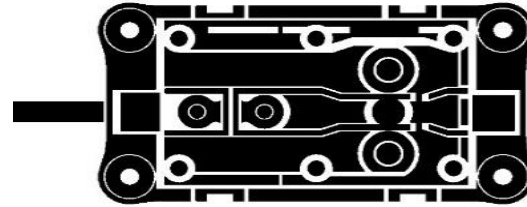

- 300 Amps rated, 24V
 - Dual battery management
 - Applications: trucks, hybrid vehicles...
 - Bistable actuator
 - Power connections M10
 - Cable output for any type of connector
 - up to 2 inputs & 2 outputs
 - ADR homologation
 - Relay variant

S280 SERIES

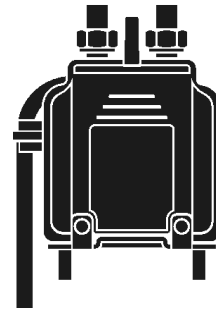

- Dual circuit 24V / 12V
 - 300A / 50A rated
 - Applications: trucks, busses
 - Bistable actuators
 - Power connections M10 & M6
 - Cable output for any type of connector
 - up to 3 inputs & 3 outputs
 - Tachograph supply output
 - ADR variant
 - SLP variant (UK) with Slave Unit S270
 - Optional chassis control switch (HDSCS connector)

S310 SERIES

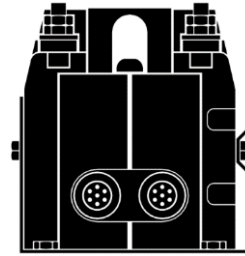

- 300 Amps rated, 24V
 - Applications: trucks, busses...
 - Bistable actuator
 - Power connections M10
 - Cable output for any type of connector
 - up to 5 inputs & 3 outputs
 - ADR variant

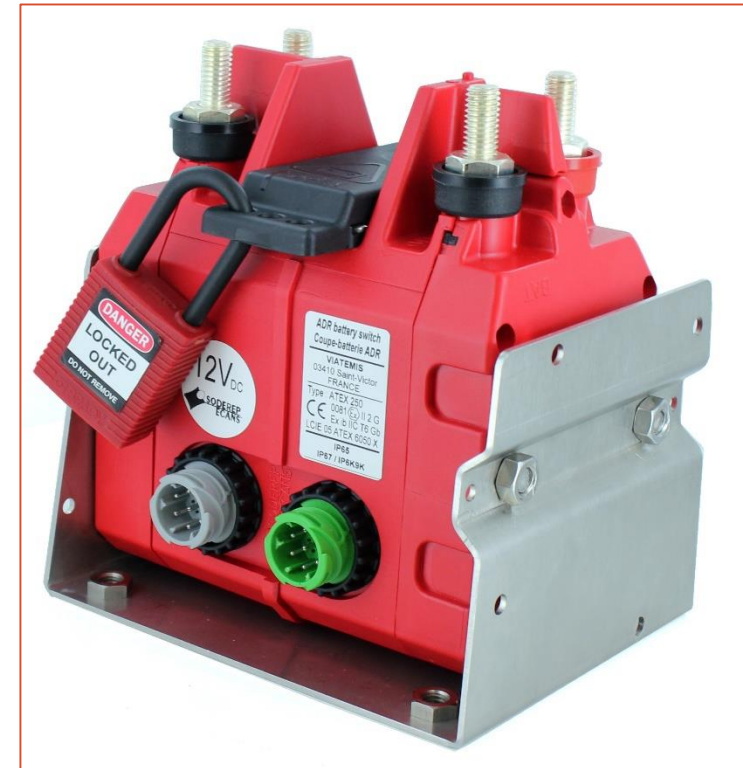

S255 SERIES

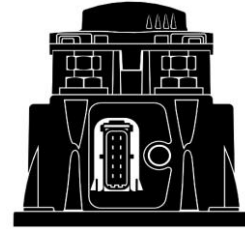

- 2-pole, 300 Amps rated, 24V or 12V
 - Applications: trucks, mine vehicles, road trains...
 - Bistable actuators
 - Power connections M10
 - 2x 7-pole DIN connectors
 - up to 3 inputs & 2 outputs
 - External rollover sensor control
 - ADR

S355 SERIES

- 2-pole, 300 – 500 Amps rated
 - Applications: trucks, mine vehicles, road trains...
 - Automatic 12V / 24V range
 - Bistable actuators
 - Power connections M10 or M12
 - HDSCS connector (variant with 2x 7-pole DIN connectors)
 - up to 3 inputs & 2 outputs
 - Variant with manual override control
 - Changeover switch variant
 - ADR variant with integrated rollover sensor

S700 SERIES

■ Momentary action, 1 pole, 10 Amps

- 2-pin bayonet connector DIN 72585 / ISO 15170
- Normally Open (NO) circuit
- or Normally Closed (NC) circuit
- Variant with pigtail and Superseal connector (other type on request)
- Different button colour and symbol options

S701 SERIES

- 2-position switch, 1 pole or 2 poles, 10 Amps
 - 2-pin or 4-pin bayonet connector DIN 72585 / ISO 15170
 - 1 or 2 Normally Open (NO) circuits
 - or 1 Normally Open (NO) & 1 Normally Closed (NC) circuits
 - Variant with protective lid (ADR applications)
 - Variant with lockable lid in OFF position
 - Variant with pigtail and HDSCS or Superseal connector (other type on request)
 - Different colour and symbol options
